

**ARECA FORK OIL 10W****Fork oil 10W**

Anti-wear and antioxidant oil with a high viscosity index dedicated to motorcycle forks and other damping systems on roads and in competition.

This oil is naturally yellow in colour.

**Physicochemical Characteristics**

| Characteristics             | Method     | Unit | Typical value | Min. | Max. |
|-----------------------------|------------|------|---------------|------|------|
| Viscosity grade             | SAE J      | -    | 10W           | -    | -    |
| Kinematic viscosity @ 20°C  | ASTM D7279 | cSt  | 128           | -    | -    |
| Kinematic viscosity @ 40°C  | ASTM D7279 | cSt  | 50.1          | -    | -    |
| Kinematic viscosity @ 100°C | ASTM D7279 | cSt  | 8.64          | -    | -    |
| Viscosity index             | ASTM D2270 | -    | 151           | -    | -    |
| Pour point                  | ASTM D5950 | °C   | - 39          | -    | -    |
| Density @ 20°C              | D 20/4     | -    | 0.875         | -    | -    |
| Flash point                 | NF T 60103 | °C   | 204           | -    | -    |
